Enjoy precise audio reproduction, just as the creators intended with the flagship AV receiver featuring Direct Energy HD (High fidelity class D) amplifier, SABRE® Ultra DAC, and AIR Studios Monitor Certification. Dolby Atmos® brings a new level of surround sound in the ideal environment made by Pioneer's MCACC Pro auto-room calibration, while the object-based DTS:X™ format will also be available with firmware update. Other highlights include video scaler with Super Resolution, Ultra HD Pass-through with HDCP 2.2, and USB-DAC.

**CONSTRUCTION DESIGN**
- Advanced Direct Construction
- Rigid Trans-Stabilizer
- Insulated Dual Chassis
- 3D Space Frame Construction
- Low Leakage Flux Power Transformer
- Anti-Standing Wave Insulator

**AMPLIFICATION**
- Channels: 9
- Amplification Type: Class D (Direct Energy HD)
- 850 W Multi ch Simultaneous Drive (8 ohms, 1 kHz, THD 1.0 %)
- 260 W/ch (4 ohms, 1 kHz, THD 1.0 %, 1ch Driven)
- 220 W/ch (6 ohms, 1 kHz, THD 1.0 %, 1ch Driven)

**AUDIO FEATURES**
- AIR Studios Monitor Certification
- Dolby Atmos®/Dolby® TrueHD/Dolby Digital plus/Dolby Surround
- DTS:X/DTS Neural:X™ Ready*
- DTS-HD Master Audio/DTS-ES/DTS neo:X|11.1
- USB-DAC 192 kHz/32-bit with DSD native playback
- DSD Direct playback via network/USB (2.8 mHz, 5.6 mHz/2ch)
- DSD Disc (SACD) playback via HDmi (2.8 mHz/5.1ch, 2ch)
- SABRE® Ultra DAC (ES9016S) for 9.2ch
- Audio Scaler 192 kHz/32-bit Enhancer
- MCACC Pro Room Calibration
  - Full Band Phase Control
  - Auto Phase Control Plus/Phase Control Plus
  - Standing Wave Control
  - 3D Time Axis Measurement
  - Precision Distance
  - Subwoofer EQ (4 Band)
  - Bass Management System for Dolby Atmos Enabled Speakers
- Sound Enhancements
  - pQLS Bit-stream/Multi-Surround/2ch
  - Advanced Sound Retriever (Multi-ch)
  - Auto Sound Retriever/Auto Sound Retriever for ARC
  - Auto Level Control (Multi-ch)
  - Virtual Speakers (Wide/Height/Surround Back)
  - Rendering Mode

**HOME NETWORK FEATURES**
- Apple AirPlay Certified
- DLNA Certified™ (1.5)
- HT Connect™ Certified
- Compatible with Windows® 8
- Music File Playback/Seek via Network/USB: AIF, Apple Lossless, WAV, FLAC, MP3, WMA, AAC, DSD
  - 192 kHz/24-Bit Audio playback (AIF, Apple Lossless, WAV, FLAC)
  - Multi-Channels (5.1ch, 5.0ch) Audio Playback (WAV**, FLAC**)
- Gapless playback for AIF, Apple Lossless, WAV, FLAC, AAC, MP3, DSD
- Spotify® Digital Music-Streaming Service Ready**
- Internet Radio with vTuner

**CONVENIENCE FEATURES**
- iPod Digital Transmission via Front USB Terminal
- Android™ Audio/Video Playback with MHL™
- Start-up Navi (Initial Setting App) Ready (iOS/Android)**
- AVNavigator (Wiring Navi/Interactive Operation Guide)
- iControlAV5 Remote Control App Ready (iOS/Android)**
- iControlAVS Remote Control App Ready (iOS/Android)**
- HDMI ZONE Out (HDZONE)
- Built-in Wi-Fi® (Dual Band 5 GHz/2.4 GHz)
- Built-in Bluetooth Wireless Technology (Version: 2.1 + EDR, Profile: A2DP/AVRCP, Codec: SBC/AAC)
- Power Save for HDMI Standby Through
- Learning Remote Control (Luminous)

**SPECIFICATIONS**
- Power Requirements: AC 220-230 V, 50/60 Hz
- Power Consumption/Standby: 370 W/0.1 W
- Dimensions (W x H x D): 435 x 185 x 441 mm
- Weight: 18.1 kg

---

* Firmware update required ** Up to 192 kHz streams via USB, up to 96 kHz streams via wired LAN, up to 48 kHz via wireless LAN ** Up to 96 kHz streams

** For service availability in your country, check: www.spotify.com ** Available for free download from the App Store/the Google Play™
**Direct Energy HD Amplifier**

For the ideal multi-channel environment, all channels should have the same speakers, driven by the same amplifier, under same conditions. So for the SC-LX89-K/-S, Pioneer has adopted the Direct Energy HD Amplifier capable of simultaneous high-power output for all channels. The core Direct Power FET has a simple structure with the semiconductor chip directly mounted on the circuit board. As a result, a large reduction in inductance components for improved signal quality, smaller heat sink by efficient heat dissipation, and shorter transmission path by cleaner circuitry have been achieved, realizing quality sound, high-power output, and high efficiency at the same time. As the Direct Energy HD Amplifier continues to improve by each generation, it creates the ideal reproduction environment for object audio as well as legacy formats.

**DTS:X is Ready**

DTS:X is the next-generation audio codec from DTS that leverages object-based audio to enable new immersive and interactive audio experiences. Since DTS:X can automatically adapt the audio to the existing channels and speakers system, no specific speaker layout is required. Experience an immersive soundscape with incredibly rich and life-like audio. With the ideal reproduction environment created by MCACC Pro, an immersive and interactive audio experience is provided by MCACC Pro, which allows the most precise speaker drive for faithful reproduction of the true-to-life soundscape of Dolby Atmos. With synchronized sound and image, you can experience total immersion in the movie world.

**USB-DAC**

The SC-LX89-K/-S is compatible with the 7.2.4ch*, 9.2.2ch*, 7.2.2ch, DTS:X will be available with firmware update.

**Full Band Phase Control**

Pioneer’s Phase Control technology effectively eliminates phase lag and significantly improves the multi-channel sound without any extra operation. Furthermore, The Full Band Phase Control technology focuses on the group delay in the speaker network filter, and adjusts the phase of each unit as well as the group delay for each speaker. Multi-range speakers gain the sound coherence of full-range speakers, while retaining the wide frequency range advantage. In an environment where the phase of all units and all channels are precisely controlled, a remarkably clear sound location with surrounding feel is achieved. In combination with MCACC Pro’s auto room tuning technology, the ideal multi-channel reproduction environment can be created, which faithfully replicates object audio and the intention of the directors.

**Dolby Atmos®**

The SC-LX89-K/-S is compatible with the 7.2.4ch*, 9.2.2ch*, 7.2.2ch, 5.2.4ch configurations of Dolby Atmos. You can reproduce object-oriented sound in smooth, curving movements, or the realistic three-dimensional movement overhead by the speakers. However, the appropriate playback environment is required to bring out the best from Dolby Atmos. This is provided by MCACC Pro, which allows the most precise speaker drive for faithful reproduction of the true-to-life soundscape of Dolby Atmos. With synchronized sound and image, you can experience total immersion in the movie world.

**ESS SABRE™ Ultra DAC**

The highly acclaimed 192 kHz/32-bit ESS SABRE™ Ultra DAC (ES99016S) delivers exceptional sound with ultra-low distortion and high S/N ratio. It offers jitter-free performance for astonishing audio reproduction with rich deep bass.

**Made for iPod**

Asynchronous transfer, which eliminates jitter and reproduces master quality sound with extremely precise audio signals. Native DSD playback is also supported.

**Bluetooth®**
