Radio unit caution

This unit is a 200kHz radio frequency, which is a high-frequency type. If you have a TV, radio, or other electronic equipment near the unit, it may cause interference. Although we do not recommend that you use the AC adapter to power the radio, we are offering it to those who need to keep the radio on for extended periods of time.

Store the AC adapter out of the reach of children and infants.

CAUTION

• The AC adapter is not used outdoors.

• Please remove the plug from the socket when not in use.

• Do not attempt to disassemble or modify the adapter.

• Do not connect multiple AC adapters.

• Please do not modify the adapter in any way.

• Please do not use with an extension cord or power strip.

• Do not use in a car or ship and which requires more than 150W of output power.

• Do not use in the back of a vehicle or in the front seat of a car.

• Do not use in a non-ventilated area or near water.

Power Cord CAUTION

Do not pull the power cord by the plug, and do not put the plug to the cord and move the power cord. Do not pull the power cord on the period or other equipment. Do not allow the power cord to come into contact with the power source as this can cause fires and short circuits.
